Prop Description:

When the rebels attacked the death star, Lord Vader and two elite-Tie-pilots tried to save the space station.

As seen, this was the only Tie "survived" in battle damaged shape the attack and destruction of the first death star.

The Advanced Tie (Twin Ion Engine) X1 is a prototype Tie Fighter made for Lord Vader in Episode IV.

The Tie prop is half scale size. The cockpit is not open for visitors.

The Optional Hangar Backdrop is extra available.

Optional use of a sound & light and smoke system to animate the prop.

The brand new prop is a real highlight for the public, because of his accurate looks.

During the presentation, the prop will be serviced by authentic costumed pilots, Lord Vader and the officer's ground crew.

Additional pilot costume can be provided for special photo-shoot of selected guests.
